Parking: 182 spaces (1.1 sp./unit)

Construction Type: I, III

The City Plaza Hotel is a six-story luxury hotel designed in a contemporary style inspired by the architecture of Minoru Yamasaki, the designer of the original World Trade Center. The entrance to the hotel is highlighted by glazing and horizontal lines, drawing the eye upward and establishing the focal point of the building. As part of a mixed-use master plan, City Plaza Hotel is located adjacent to residential, retail and office uses. Offset from the residential and office by parking and a large public plaza featuring a landmark water feature, City Plaza Hotel provides 165 guest rooms and ample structure parking. Guests of the hotel can grab a drink at the lounge or sun themselves on the pool deck, just minutes away from restaurants and entertainment.
