2013 Gold Nugget Awards

Big Sky in Audie Murphy Ranch is a collection of breathtaking one-and two-story single-family homes located in the serene surroundings of the San Bernardino Mountains in Menifee, California. The homes are situated on large +7,000 square foot lots and are designed to provide flexible idea spaces that afford homeowners the ability to enhance/expand the lifestyle afforded to the 'living' areas of the home. These special areas, while thoughtful in design, reveal expansive dining rooms for entertaining, first floor living suites, expanded laundry, generous flex rooms, a chef-inspired kitchen, large closets, abundant storage spaces and oversized three-four car garages. These additions or expansions are intended to keep the family closer while giving them the flexibility that every growing family needs.
