Facts

Area: 424,833 sq. ft.

Best in the West consists of a refresh to an approximately 425,000 square-foot shopping center in Las Vegas, Nevada. The designers maintained the original Spanish style architecture of the building while providing a much-needed face lift to an outdated motif, articulations and color scheme. The focus included a repaint with focal point architectural upgrades to fit within the existing architecture while minimizing demolition to meet budget. Best in the West features premier tenants in the growing Las Vegas market and is located along Interstate 95 at the intersection of Rainbow Boulevard and Lake Mead Boulevard near the affluent Summerlin submarket.
