Plotting: Conventional

## Awards

2016 Silver Nugget Awards

Teton Cliffs are 194 new homes located in Skye Canyon, the newest master planned community in Northwest Las Vegas in almost 12 years. Located conveniently off the 95 freeway and northeast of Red Rock Canyon National Park, these homes offer easy access to shops, dining, entertainment and the excitement of The Strip while maintaining stunning views of the mountains and desert. The homes vary from three to six bedroom floor plans with two-and-a-half to five bathrooms and offer an enormous number of floor plan additions and reconfigurations making them perfect for move-up home buyers looking for a custom home feel. Courtyards have a strong presence in all plans; the perimeter glazing allows easy interactivity between indoor and outdoor spaces. This idea is pushed further with mirador options off the bonus room, patios off the master bedroom and front porch options. Each home integrates cutting edge designs, livability and the latest technology in energy efficiency creating lasting value.
