Site Area: 14.78 ac

Lot Configuration: Front Loaded

Plotting: Conventional

Build-it-Green: 65 Points

The Summit at Schaefer Ranch is nestled high in the hills of West Dublin and surrounded by beautiful canyons with breathtaking views. Five thoughtfully-designed two-story homes allow for up to five bedrooms and four baths with a loft and office, along with spacious kitchens and unique outdoor living spaces. Environmentally conscious, all homes have ENERGY STAR appliances and insulated entry doors, low-e windows, low-VOC interior paint and carpet, tankless water heaters, low-flow plumbing features and optional solar power systems. KTGY's sustainable design and quality materials have earned The Summit at Schaefer Ranch 65 points in the Build-it-Green program. The homes are conveniently close to nearby freeways and transportation such as the I-580 and I-680, BART and ACE Train and are also minutes away from wine tasting, golf and premier shopping.
