Northwestern Memorial Healthcare

Typology

Healthcare
Medical Office

Facts

Building Area: 4,200 sq. ft.
Construction Type: II

Northwestern Medicine's newest Occupational Therapy office is a 4,200 square foot LEED certified physical therapy suite located off Church Road in Aurora, Illinois. Designed in conjunction with Business Health Clinic, the facilities share a waiting/ registration area increasing facility efficiency and useable space within the suite. A large therapy room, unencumbered by walls and surrounded with windows, allows for more flexible use of the space, specialized equipment layouts and natural light each serving to enhance the patient experience. The Occupational Therapy facility is fully equipped with: large therapy/gym space, small therapy rooms, audio testing rooms, casting station, private offices and a kitchen therapy area.
